STOCK MARKET BROADENS AFTER LISTLESS OPENING.

RULL LEADERSHIP OBTAINS A LARGER FOLLOWING.

Little Promise of Strong Bank Statement in the Preliminary

New York, June 13 .- After a dull and hesitating market during the greater part of to-day, with isolated movements here there, the market broadened in the final hour and moved upwards quite generally with a considerable show of strength. The activity was attributed to the same speculative leader, who had been concerned meall recent important movements, and whose return to Wall street this week gave immediate rise to a show of awakening. Whatever the motives of the buying, the buil leadership secured a larger following to day than at any time this week, not withstanding a number of new developments not immediately encouraging to a rise in prices. The preliminary figures of the week's currency movement, which are usually the center of interest in a Friday's market, gave 1.0 promise of a strong bank statement. The subtreasury absorption of 2,365,000 apparently has been little more than offset by the balance of receipts from the interior.

Leans Not Much Contracted. whose return to Wall street this week gave

There is no indication of any considerable loan contraction during the week, and the time money market continues to reflect the cautious desire of borrowers to provide themselves with fixed sums for a considerable time to come. To-day's cropners was regarded as favorable, owing to complaints of too much rain in the Southwest. Part of the strength of wheat was attributed to an improved demand for export, but this failed to develop fully. The figures of the May agricultural exports were decidedly unfavorable, the decreases in value from those of May last year reaching over \$50,000.000, the breadstuffs alone decreasing \$12,785,000 and amounting to only about half those of last May. Last week's exports of wheat and flour show a continuance of the low average, although the most

notable falling off in the corn exports. This does not offer encouragement to the hope of an early supply of foreign exchange to facilitate remittances for repayment of foreign chilections.

hope of an early supply of foreign exchange to facilitate remittances for repayment of foreign obligations.

Still No Settlement of Strike.

The advance of a point or over in the Reading stocks was an important sympathetic influence on the late market, but there was no news to show a prospect of an early settlement of the strike. The increase in the demand for stocks was incontestable nevertheless. In some cases the movement was due to individual causes. Sugar advanced on the oversold condition of the market for the refined product and was benefited also by the reforts of a special presidential message to Congress re-enforcing the recommendation for Cuban reciprocity. There were a number of very large individual buying orders for Mexican Central executed in the early market, but the buying was not followed up. The drop of 8½ points in General Electric was probably due to reports of a new combination of electric manufacturing companies backed by influential capitalists. The stock afterward railled 4 points.

Chicago and Eastern Illinois rose 4½ points further on persistent rumors of an offer for control. The day's reports of railrond earnings showed a continuance of increases over last year's corresponding period. The market closed rather quiet but steady.

There was a large demand for Wahash period. The market closed rather quiet but steady.

There was a large demand for Wahash debentures, Bs at an advance of 2% per-cent. The Burlington joint 4s were also in demand. The market generally was firm. Total sales, par value, \$2,690,000. United States 2s declined % per cent on the last call.

> Foreign-Business for foreign account in this market to-day was very light, the arbitrage houses reporting transactions of less than 5,000 shares evenly divided between purchas and sales. The London market for Americans was exceedingly dull, quotations in majority of cases being merely nominal.

Mexican Central—An early feature was Mexican Central. The opening sales were 1,000 shares at 25%, 1,000 shares at 25% and later a third lot of 5,000 shares at 25%. The buying was chiefly by W. L. Stow & Co., who are in control of property. It was said that irrotranization plan would be issued next week. The bonds were also active and strong, it was said that first incomes would be found to be worth about 25 under the plan.

St. Paul—The specialists reported that there had been some realizing by the Western party, the principal selling being by E. S. Chapin, Clark, Dodge & Co. and Wrenn Brox. There was a fair demand from scattering commission houses on the theory that if the general market improved, St. Paul would be one of the leaders.

Miscellaneous—Reading was one of the strong features of last hour, rising on operations credited to the Chicago clique. The sharp break in General Electric was due to the execution of a moderate selling order "at the market" that found few bids at the higher level. There was a rally from the low figures. The strength in Wabash stocks was believed to be due to manipulation by a well-known operator affiliated with the Goulds. Flower & Co. and other prominent commission-houses bought Chicago and Eastern Illinois. There was fresh talk of negotiations with purchase of control of the property.

WOMEN ESCAPE DEATH

Twelve Persons Severely Injured in a Philadelphia Leather Factory.

Philadelphia, Pa., June 13.—Fire destroyed

the novelty leather factory of H. M. Rosen-blatt & Co., to-day, resulting in severe injuries to a dozen persons.

The John Moffet public school, opposite the leather works, was damaged, three dwelling houses were destroyed and nine dwelling houses were destroyed and nine others were slightly damaged.

The rapid progress of the flames gave rise to rumors that several employes had met death in the burning factory.

There were many sensational and narrow escapes, most of the women employed in the factory, saving their lives by leaping from the windows into nets held by the firemen. Katle Schiedell, aged 17, was carried down a ladder by a policeman. She was badly burned and her condition is reported as serious.
